

Two years have passed since the death of Darth Krayt. The remnants of his One Sith are scattered and hunted, while the Galactic Federation Triumvirate rules a united galaxy from Coruscant.

As Empress Marasiah Fel investigates the kidnapping of several of her Imperial Knights, Ania Solo and Cade Skywalker hatch an unlikely partnership in the hopes of a big score. On the way they'll pick up allies they never expected to gain.

However, a change is coming that will transform the galaxy forever. Once it happens, no one- Jedi, Sith, Imperial Knights, fringers who just want to be left alone- will ever be the same again.
